COLLEGE OF AGRICULTURE, EJIGBO CAMPUS
FACULTY OF RENEWABLE NATURAL RESOURCES MANAGEMENT
DEPARTMENT OF FISHERIES AND AQUATIC RESOURCES MANAGEMENT

5th February, 2025

Sejfarms Consult Limited,
Badagry, Lagos State,
Nigeria.

Dear Sir,

REVIEW AND TESTIMONIAL FOR THE INTERNSHIP AND TRAINING PROGRAM

On behalf of The Department of Fisheries and Aquatic Resources Management, Osun State University, I am pleased to express our sincere appreciation and gratitude for the valuable internship and training program provided to our students at your organization. Our collaboration with your esteemed organization has been an enriching and transformative experience for our students, and we are delighted to share our positive feedback.

At the outset of this partnership, our primary expectation from the internship and training program was to provide our students with hands-on experience and practical knowledge in the field of aquaculture. We aimed for them to gain real-world exposure to modern fish farming techniques, hatchery management, water quality control, fish health management, and sustainable aquaculture practices. Additionally, we sought to develop their problem-solving abilities, teamwork skills, and understanding of the commercial aspects of fish farming.

We are pleased to say that Sejfarms Consult Limited has not only met but exceeded our expectations in every aspect. Under the guidance of your expert team, our students have gained invaluable skills and insights that go far beyond the classroom. They have been actively involved in daily farm operations, learning critical skills such as fish breeding, feeding techniques, disease prevention, water management, and business aspects of aquaculture. The structured training sessions, mentorship from experienced professionals, and exposure to innovative aquaculture practices have significantly enhanced their knowledge and competence.

Moreover, the collaboration between Sejfarms and our Department has greatly benefited our students by bridging the gap between academic learning and industry requirements. This hands-on training has boosted their confidence and prepared them for careers in the aquaculture industry. Many of our students have expressed their appreciation for the engaging and supportive learning environment at Sejfarms, which has inspired them to pursue careers in this field with greater enthusiasm.

We truly value this partnership and look forward to continued collaboration in the future. Thank you for your commitment to training and empowering the next generation of aquaculture professionals. We highly recommend Sejfarms Consult Limited to other institutions seeking industry-relevant training programs.

Yours Sincerely,

Ayanboye

Dr. O. A. Ayanboye
